### **ACTION ITEMS**

1. Upstate Pathology Lab Ownership, LLC (Project #3101-24-07A) Initial Meeting – The applicant is proposing construction of an approximately 109,000 square foot three story pathology lab building. Kevin McCauliffe advised that Upstate Pathology is currently spread amongst three different buildings and five floors, occupying 55,000 square feet in Downtown Syracuse. The project will have no retail component under municipal law as there will be no customers in this building. This was reiterated by Chris Andreucci later in the meeting. This would not be a medical center, rather used for laboratory testing. Kevin McCauliffe stated that the pathology department has dealings where over 50% of those dealings are outside of Onondaga County, meaning that the department will have the capabilities to broaden its area and the volume that it handles. The Pathology Department currently has about 220 employees, where 178 will move to the new building, and about 50 will stay downtown.

Janice Herzog asked if the lab services will be owned by Upstate and if they will occupy 100% of the new building; Kevin McCauliffe confirmed both inquiries. Sue Stanczyk asked if it is a vacant lot. Kevin McCauliffe advised that this construction would be on 23 acres adjacent to the current Bone and Joint center. Jim Messenger added that Upstate Pathology would be the sole occupant and that it is not a public access building. Janice asked if Upstate is the owner of the property and Kevin McCauliffe stated that this land is

owned by John Murphy's company, Upstate Pathology Lab Ownership, LLC. Sue Stanczyk asked about the timeline of the project and whether it has been approved by the Town of DeWitt planning board; Jim Messenger advised they have received the County DOT approval, that they are waiting for the state approval, and that they believe the approvals will be finalized in January of 2025. Robert Petrovich wanted to confirm whether the Town of DeWitt was responsible for the SEQR process, and Kevin McCauliffe confirmed.

Patrick Hogan read the Agency Action Requested of "A resolution of the Board accepting the application from the company, inducing the project and authorizing a public hearing." Motion was made by Kevin Ryan, seconded by Susan Stanczyk. Motion was carried.

2. 1046 Old Seneca Turnpike LLC (Project #3101-22-04A) Modification Meeting –Kevin McCauliffe asked for the sales tax exemption to be extended from December 31, 2024 to July of 2025. Bob Petrovich verified that there is no extension of benefit, only an increase of time.

Patrick Hogan read the Agency Action Requested of "A resolution of the Board authorizing an extension of the sales and use tax exemption." Motion was made by Jani Herzog and seconded by Susan Stanczyk. Motion was carried.

3. Finger Lakes Railway Corporation (Project #3101-24-08B) Initial Meeting – Eric Betke stated that Finger Lakes Railway is a small business operating over 6 counties, differentiating themselves from a company like CSX, and making their project unique compared to other projects that come before the OCIDA Board. Eric Betke shared some of the improvements that the applicant wants to undergo with the benefit, such as infrastructure by modernizing their railroad tracks and signals. Patrick Hogan wanted to note that ancillary to the improvements the applicant is looking to make, the applicant often acts as a partner with many of the municipalities, stating that the applicant has been a "good neighbor" to these entities. Eric Betke echoed these sentiments by describing the applicant's involvement and cooperation with the municipalities their railroad impacts.

Sue Stanczyk asked if the applicant is going through the same processes with the other regions. Eric Betke advised that they are into the processes that they are undergoing with the other counties which includes a 10-year capital plan in every county. Sue Stanczyk asked if the applicant has been granted approval by the other counties and whether Onondaga County was the first, and Eric Betke responded that they have not gotten approved by the other counties yet, as they have had to regroup a few times because there was a process challenge that arose with shifts in PILOT methodologies. Bob Petrovich added that after communications between OCIDA and Finger Lakes Railway

Corporation, it is in the best interest of the County to have a standalone agreement with the applicant and that as part of the closing documents, the ST-60 will have a shelf life of 2 years with the option to extend, as well as a request for an annual certification to ensure improvements are being made and that benefits are being provided for an investment that is in fact occurring.

Patrick Hogan read the Agency Action Requested of “A resolution of the Board authorizing a public hearing.” Motion was made by Janice Herzog and seconded by Susan Stanczyk. Motion was carried.

4. CVE US E14 Manlius North, LLC (Project #3101-21-16A) Modification Meeting – Patrick Hogan read “Request for execution and delivery of lender documents in connection with a refinancing.”

Patrick Hogan read the Agency Action Requested of “A resolution of the Board authorizing execution and delivery of lender documents.” A motion was made by Susan Stanczyk and seconded by Kevin Ryan. Motion was carried.

5. CVE US E15 Manlius East, LLC (Project #3101-21-17B) – Patrick Hogan read the Agency Action Requested of “A resolution of the Board authorizing execution and delivery of lender documents.” A motion was made by Susan Stanczyk and seconded by Fanny Villarreal. Motion was carried.

## Section VIII: Local Access Policy Agreement

In absence of a waiver permitting otherwise, every project seeking the assistance of the Onondaga County Industrial Development Agency (Agency) must use local general contractors, sub-contractors, and labor for one-hundred percent (100%) of the construction of new, expanded, or renovated facilities. The project's construction or project manager need not be a local company.

**Noncompliance may result in the revocation and/or recapture of all benefits extended to the project by the Agency. Local Labor is defined as laborers permanently residing in the State of New York counties of Cayuga, Cortland, Herkimer, Jefferson, Madison, Oneida, Onondaga, Oswego, Tompkins, and Wayne. Local (General/Sub) Contractor is defined as a contractor operating a permanent office in the State of New York counties of Cayuga, Cortland, Herkimer, Jefferson, Madison, Oneida, Onondaga, Oswego, Tompkins and Wayne. The Agency may determine on a case-by-case basis to waive the Local Access Policy for a project or for a portion of a project where consideration of warranty issues, necessity of specialized skills, significant cost differentials between local and non-local services or other compelling circumstances exist. The procedure to address a local labor waiver can be found in the OCIDA handbook, which is available upon request.**

In consideration of the extension of financial assistance by the Agency Finger Lakes Railway Corp. (the Company understands the Local Access Policy and agrees to abide by it. The Company understands that an Agency tax-exempt certificate is typically valid for 12 months from the effective date of the project inducement and extended thereafter upon request by the Company. The Company further understands that any request for a waiver to this policy must be submitted in writing and approved by the Agency.

I agree to the conditions of this agreement and certify all information provided regarding the construction and employment activities for the project as of 12-3-24 (date).

### **ATTACHMENT (REVISED 11.29.24) ONONDAGA COUNTY INDUSTRIAL DEVELOPMENT AGENCY APPLICATION FOR FINANCIAL ASSISTANCE**

#### PERTINENT BACKGROUND INFORMATION

Finger Lakes Railway (FGLK) was founded in 1995 in a precedent-setting public-private initiative to preserve essential rail freight service in the aftermath of a regional carrier that had neglected marketing and maintenance of its upstate railroad properties. In order to achieve sustainable operating economics in light of established railroad property taxation that contributed to the predecessor's shutdown, FGLK's experienced railroad owner-operators reached agreement on annual payments in lieu of taxes (PILOTs) among Industrial Development Agencies of the six affected host counties. The current renewal of these formalized agreements is due for review in 2025.

FGLK is a Class III (small-business) railroad that operates, maintains and markets over 130 miles of track serving 39 active customers situated in Cayuga, Onondaga, Ontario, Oswego, Seneca, Schuyler and Yates counties. FGLK owns or leases 17 locomotives and more than 600 railcars to meet customer shipping needs. Since inception, it has grown from 6 to 45 full-time employees and from 5,642 first-year carloads to an annual range of 16,000-18,000, depending on general economic conditions. The cost-effectiveness of moving heavy bulk commodities by rail involves environmental side benefits from fuel efficiency (about three times better per ton-mile than trucking), dramatically reduced exhaust emissions and associated noise, and motor carrier diversion from damage-prone highway travel. A less obvious benefit of the railroad to the community from reduction of truck traffic and its inevitable pavement damage. At a 3:1 ratio of trucks to railcars, some 30,000 truckloads are shifted from congested county and local roads to the rails in Solway. A 2016 American Short Line and Regional Railroad Association (ASLRRRA) study indicated that short line railroads in New York State saved its counties and local communities \$22-million statewide in annual roadway maintenance.

The key to a coordinated effort to reduce costs of service to permit regular reinvestment lies in mutual commitment to a cluster of rail lines that differ in mileage, customers and traffic in each county but constitute a coordinated regional rail system for moving traffic from origins and to destinations throughout the United States and Canada. Extended customer reach is exemplified by inbound plastics from Texas, soda ash from Wyoming, and wines from California. Outbound paperboard is delivered to destinations as distant as Alberta, canned goods to Arizona, and salt to Florida. Movements are accomplished by means of direct connections with long-distance carriers CSX at Solway, Norfolk Southern at Geneva, and their affiliate The New York, Susquehanna and Western Railway at Syracuse. Using an anatomical analogy, FGLK's cluster of lines represents capillaries in a North American network of arteries and veins, and the whole of FGLK has far greater economic impact than its individual parts. The formularized PILOT arrangement recognizes that commonality of interests and associated value of transportation service accrues to the benefit of all counties, customers and consumers.

FGLK’s rail line runs east to west starting at Solvay (Syracuse), through Auburn to Geneva and continues west to Canandaigua and Shortsville, and includes a branch line between Penn Yan and Watkins Glen connected to the rest of the rail system via trackage rights on the Norfolk Southern Corning Secondary. The “Auburn Road Line” is a main line connecting the eastern rail yards in Syracuse and Solvay to the western Geneva Yard through the central Auburn Yard. All FGLK terminating and originating traffic comes in or out through either Solvay (54%) or Geneva (46%). A number of railcar loads are moved between on-line customers, which is crucial to the local economy and truck traffic reduction, including Smurfit WestRock’s paper mill in Solvay and box plant in Camillus.

Railroading inherently is a highly competitive, complex and capital-intensive business dependent on maximizing volume to realize relatively low returns, particularly in an inflationary economic environment. Over the past five years, FGLK has experienced a progressive decline in profitability, culminating in a reported 2023 loss of \$265,236 and potential repeat this year.

Major revenue-related expense categories included maintenance of way (26.4%), maintenance of equipment (10.6%), transportation (47.3%), and general and administrative (16.6%), a total of 100.9%. FGLK nonetheless has continued to reinvest in its rail properties, a total of \$2.3-million in 2023.

Consistent with the counties' interests in expanding the base of employment, FGLK's mission remains one of increasing market shares for existing customers while developing additional on-line industrial sites, accompanied by continuing reinvestment to update its infrastructure to the modern gross weight standard of 286,000 pounds. A single treated wooden crosstie replacement costs about \$120, and around 3,000 of them support each mile of line. Funds saved under the PILOT facilitate investment in track and bridges with expected lifespans of 50-100 years. A financial history of the reinvestments by FGLK to the railroad infrastructure through 2023 in Onondaga County is provided below.

FGLK is nearing completion of the \$1.53-million Solvay West End Yard Ladder Safety Improvement Project, for which FGLK's required contribution of \$1.03-million was

supplemented by a federal grant of \$500,000. The Solvay Yard, originally built in the late-1800s, was in dire need of modernization. In 2011, FGLK purchased from CSX and immediately replaced an out of service and condemned bridge with fill to restore the former main line. Project construction restarted on May 6, 2024 and includes widening of track centers, replacing turnouts, replacing all deteriorated ties, adding light poles and lighting and improving emergency access. In that regard, Onondaga's future as the "gateway" to the PILOT cluster of lines appears promising. Its location affords FGLK customers frequent local switching service (including inter-plant shuttle movements) and multiple-carrier transportation access assuring competitive freight rates throughout the country.

FGLK brings to Onondaga County its infrastructure, a second transportation modality, exemplary customer service, and commitment to grow its business base in conjunction with the IDA by facilitating expansion of existing customers and attracting new industry. Aside from its formularized PILOT payments, the County derives benefit from increased employment and tax revenue from FGLK customer growth, capital investments and business development. The projects for which the railroad seeks relief are best defined as a suite of capital-intensive improvement projects planned for the near term, others arising from future identified physical facility obsolescence, and prospective third-party commercial development opportunities.

As a part of our PILOT partnership, the county and local communities have received over \$38,000 in annual lease offsets, a no-cost easement for the Milton Avenue drainage project valued at \$160,000, as well as use of FGLK property on Martisco Road for school buses and snowplows to turn around.

The 39 dispersed beneficiaries of FGLK service include a diversified mix of businesses employing around 4,000 in-state workers that depend on competitive transportation pricing. Among the more prominent are Smurfit-WestRock's paper mill and box plant, Nucor Steel's modern electric-furnace mill, glass container specialist Owens-Illinois, flat-glass producer Guardian Industries, U.S. Salt's and Cargill's underground reserves, Seneca Foods' cannery and distribution center, and Pactiv Evergreen and Silgan container-manufacturing facilities.

Others reflect a cross-section of the regional industrial economy and include Birkett Mills, CaroVail, DeLong, E&J Gallo, Finger Lakes Agronomics, Liquid Products, Maybury, Phelps Supply, and several other fertilizer suppliers in support of New York agriculture, DuMond and other farms (soybeans, corn and other grains), Heidelberg (stone quarry, sand, ballast, rip-rap, asphalt), CertainTeed (shingles, roofing), Messer (beverage grade Co2), LPG suppliers (heating fuel), Tomra (glass recycling), Henkel/Zotos (cosmetics), Scepter (salt cake and aluminum ingots), Builders Choice Lumber (a new lumber yard), and Leonard's Express (a new freight forwarder).

Attached are letters from FGLK's rail customers and suppliers attesting to the importance of rail to their future operations and expansions in upstate New York.

### **C) Applicant Business Description:**

#### **Applicant/Owner History:**

1. Is the owner and/or Applicant or any manager or owner of the Owner and/or Applicant now a plaintiff or defendant in any civil or crimination litigation? Yes, explain.

All common-carrier railroads are authorized by the Surface Transportation Board to operate in intrastate or interstate service and are therefore covered by the Federal Employer Liability Act

(FELA) and prohibited from coverage under the State Workers Compensation Act. Unlike FELA, Workers' Compensation employees typically do not sue their employer and must accept the benefits provided by the system. In FGLK's 29-year history, there has been no FELA claim against the company.

On April 22, 2024, FGLK was served notice as a third-party defendant, along with WestRock, by attorneys representing CSX, relating to a personal injury claim by one of CSX's employees. While FGLK operates in a close proximity rail yard, provides rail service to WestRock, and interchanges railcars to CSX, it has never owned the tracks, property or operated on the tracks where CSX train crews were picking up or delivering railcars. FGLK's insurers and their appointed counsel are handling the claim/case.

#### **D) Applicant/Owner Assistance from Onondaga County Industrial Development Agency:**

FGLK received assistance under a six-county identical PILOT approved in July of 1995 and July, 2005. In 2015, the IDAs and FGLK renewed an identical PILOT with increased benefits for every county.

FGLK inherited a rail facility that, because of low traffic volume and high property taxes, was undermaintained and had been shrunk, through track retirements and removals, to match a limited demand for rail service. A key goal was to establish a shared approach with the six counties through which the rail line would operate, thereby ensuring preservation of this important rail asset. Immediately upon the purchase of the lines from Conrail and securement of the six-county PILOT, FGLK embarked upon an upgrading and expansion program. The line from Auburn to Solway (Syracuse), which had been out of service for over five years, was reopened. The plan developed enabled FGLK to reinvest its earnings, grow its business, contribute to the tax base, and foster economic growth in the regions it served. While service improvements were made immediately, upgrading the infrastructure after years of neglect takes time and to this day, we continue to identify the next need for attention.

A Facilities Agreement added to FGLK's current PILOT provides offsets to the six-county municipalities for annual rental fees for new facilities occupying railroad property. For the year 2023, annual rental offsets totaled \$306,718, of which Onondaga County municipalities received \$198,764.

The reinvestments through 2023 by FGLK to the railroad infrastructure in Onondaga between FGLK's Milepost 2.88 in Solway and Milepost 18.36 (Onondaga/Cayuga border) include capitalized improvements totaling \$5.8-million.

FGLK's rail corridor property is its asset, but is limited by its dimensions and adjacent non-industry zoning. Like most small railways, FGLK spends 26% of its freight revenues on track maintenance and as a five-year average, capital projects have run an additional \$2.66-million per year. In total for the past five years, FGLK has spent \$16.8-million for track maintenance and \$13.3-million in capital improvements. New York State Sales Taxes paid for these improvements totaled \$841,743 for year 2023; \$858,680 for year 2022; \$725,370 for year 2021; and \$460,180 for year 2020.

The entire cluster of rail corridors consists of 130 miles of track, including switching yards and sidings, 85 bridges, five buildings, 117 public highway and 132 private grade crossings. Municipal facilities occupy railroad right-of-way in Solvay/Geddes, Camillus and Elbridge for roadway and curbing, poles and overhead electric wiring, and underground pipelines for water, sewer and storm drainage. A Facilities Agreement added to FGLK's current PILOT provides offsets to the municipalities for annual rental fees for new facilities occupying railroad property. For the year 2023, offsets totaled \$306,718, of which Onondaga County municipalities received \$198,764.

Also, FGLK provides under an access agreement to Onondaga County use of railroad property and roadway off Marisco Road for a designated turnaround for school bus and for Onondaga DOT to perform necessary snow maintenance.

Considered a distressed community by New York State, the Village of Solvay has drainage infrastructure in poor condition that warrants full replacement. Federal aid was granted toward Solvay's Milton Avenue Paving and Drainage Project, including four new proposed outlets to be installed that require permanent non-exclusive easements from FGLK of its rail corridor property. FGLK received a formal request in August 2024 for assistance to prevent loss of project funding – that FGLK donate portions of its rail corridor for four drainage pipeline locations. Based on the nominal size of each pipe and other data provided to FGLK, the estimated market value for the occupations provided by ReLTEK, LLC (professional railroad right of way real estate services) for non-exclusive property easements for three 30" pipelines and one 36" pipeline is \$40,000 each, totaling \$160,000.

#### **D) Project Narrative: Statement of Project advancement**

**If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and County/City/Town/Village?**

If PILOT financial assistance (real estate/sales tax abatement) is not authorized by the IDA, the project as represented would not move forward.

### **Section III: Financial and Employment Information**

#### **B) Employment and Payroll Information (Salary & Fringe Benefits/Jobs to be Retained/Created)**

FGLK employs system wide 45 full-time employees; 13 of whom reside in the Labor Market Area of **Onondaga (5), Cayuga (1), Oneida (1), Wayne (5) and Oswego (1)**. The daily average onsite in Onondaga County are 4 FTE's: (3) Transportation and (1) Maintenance of Equipment. FGLK estimates all those positions will be retained and anticipates hiring up to six additional

personnel system wide over the next three years. Of the present roster, 13 are classified as management, 30 are in production, and 2 fall in the administrative classification.

FGLK's available job positions are safety-sensitive and *federally* regulated. Applicants who receive conditional offers of employment must complete successful background investigations, job-function testing, medical examinations, and drug/alcohol screens.

FGLK's current 45-person employment roster averages 12 years of service, of which nine have been with FGLK for over 20 years. FGLK's average annual wage with fringe benefits is \$96,739. Full-time hourly employees are paid for overtime. Qualified hourly and salaried employees receive paid time off for illness, vacation and holidays, as well as other paid time off. In addition, FGLK provides an annual \$1,500 IRA match to all personnel. Railroad workers' unemployment benefits, sickness benefits, and retirement benefits are administered by the Railroad Retirement Board. Employers and employees pay higher retirement taxes than those covered by the Social Security Act. Railroad retirement benefits are higher than social security benefits, especially for career employees. The Railroad Retirement Act also provides supplemental railroad retirement annuities, which are payable to employees who retire directly from the rail industry. Railroad Retirement taxes at 20.75% are paid by FGLK, totaling \$650,951.

### **Local Labor Policy**

The New York State Rail Plan for investment strategies was developed in cooperation with New York's freight railroads. The plan stresses the commitment to the State's rail transportation infrastructure that serves businesses and industries, that it creates jobs for New Yorkers, and also transports many of the goods that we use each day.

FGLK makes every effort to use local contractors, suppliers, and its own railroad forces for projects, maintenance, inspections and upgrading. State and federal funding assistance includes requirements for bidding, certifications for MWBE/DBE, Buy America certifications, and other requirements under U.S. Department of Labor and the Railroad Retirement Board.

A. **Conflict of Interest.** No officer, employee or member of the Agency should have any interest, financial or otherwise, direct or indirect, or engage in any business or transaction or professional activity or incur any obligation of any nature, that may reasonably conflict with the proper discharge of their duties in the public interest.

B. **Impressions.** No officer, employee or member of the Agency should by their conduct give reasonable basis for the impression that any person can improperly influence them or unduly enjoy their favor in the performance of their official duties, or that they are affected by the kinship, rank, position or influence of any party or person. An officer or employee or member of the Agency should endeavor to pursue a course of conduct, which will not raise suspicion among the public that they are likely to be engaged in acts that are in violation of their trust.

C. Receipt or Benefit. No officer, employee, or member of the Agency shall use or attempt to use their official position to secure unwarranted privileges or exemptions for themselves or others, including directly or indirectly soliciting, accepting or agreeing to accept any benefit from another person upon an agreement that their vote, opinion, judgment, action, decision or exercise of discretion as an Agency officer, employee or member will thereby be influenced. A donation to a person seeking public or party office or to a committee supporting the efforts of such person shall not be considered such a benefit hereunder.

D. Confidential Information. No officer or employee or member of the Agency shall disclose information which is lawfully confidential and acquired by them in the course of their official duties or use such information to further their personal interests.

G. Partnership, unincorporated association or corporation. No partnership or unincorporated association of which an Agency officer, employee or member is a member or employee or in which he or she has a proprietary interest, nor any corporation of which an Agency officer, employee or member is an officer or director or legally or beneficially owns or controls more than five percent (5%) of the outstanding stock, shall appear before the Agency without full disclosure to the members, subject to Section 801 of the General Municipal Law relating to prohibited conflicts of interest.

H. Investments in conflict with official duties. (i) An officer, employee or member shall not invest or hold any investment directly or indirectly in any financial, business, commercial or other private endeavor or entity, based upon information available through their official position that could create a conflict between their Agency duties and interests and their private interests; (ii) No officer or employee or member of the Agency shall engage in any transaction as representative or agent of the Agency with any business entity in which they have a direct or indirect financial interest that might reasonably tend to conflict with the proper discharge of their official duties.

L. Sale of Goods or Services. No officer or employee or member of the Agency employed on a full-time basis nor any firm or association of which such Agency member, officer or employee is a member nor corporation, a substantial portion of the stock of which is owned or controlled directly or indirectly by such member, officer or employee, should sell goods or services to any person, firm, corporation or association which is licensed or whose rates are fixed by the Agency.

M. Gifts. Officers, employees and members shall not accept or receive any gifts or gratuities where the circumstances would permit the inference that: (a) the gift is intended to influence the individual in the performance of official business; or (b) the gift constitutes a tip, reward, or sign of appreciation for any official act by the individual.
